3. THE AIM OF CATCH WRESTLING

The aim of Catch wrestling is to gain control over your opponent in order to :

3:1 PIN

3:1:1 Put their opponent on their back to pin them. A pin is when you have put your opponent on their back. This is with any part of both shoulders or both shoulder blades of your opponent in contact with the mat at the same time.

3:1:2 When the opponent is pinned, a win will instantly be given by the referee.

3:1:3 Please note that it is irrelevant if you were going for a submission at the time, the rule is to remain off your back at all times.

3:2 SUBMISSION

3:2:1 It is expected that all wrestlers will be responsible when applying pressure on their opponent. A steady pressure should be applied allowing the opponent the opportunity to submit to prevent unnecessary injury.

3:3 REFEREE DECISION

3:3:1 On signal from the referee to confirm the pin or submission, the wrestlers must immediately release the hold. Failure to do so may result in disciplinary action.

3:3:2 Any serious breach of rules will result in instant disqualification.

5:8 LENGTH OF MATCHES

5:8:1 Historically, there were no set guidelines regarding time scales. Matches would go on until one of the wrestlers won with a pin or a submission. We have had to put time restrictions on the matches for the event to ensure that it runs smoothly. This will be confirmed once all entries are received and the schedule planned.

5:9:1 Once the match commences, there will be no break or rest periods (except in the case of injury time or where the referee may call time to address an issue).

6.MATCH REQUIREMENTS

10:1 SAFE ZONE RULES

- 6:1:1 The matches will take place on safe, approved mats.
- 6:1:2 If during the match, either wrestler leaves the wrestling area in a position of disadvantage, the referee will stop the match and bring both wrestlers to the centre of the mat. The match will be restarted with the losing wrestler in either a kneeling position or a flat stomach position or in the position that the wrestler was in when the match was stopped. The bout will then be restarted from the central position of the mat in those positions.
- 6:1:3 If neither wrestler was in a clear dominant position when the bout was stopped, both wrestlers are brought to the centre of the mat and restarted in the standing position.

6:2 INJURY TIME

- 6:2:1 The referee or medical representative has the right to call injury time when they feel appropriate.
- 6:2:2 Dependent on the injury, this can lead to a decision to terminate the match. For example, in the case of excessive bleeding that cannot be stopped within a reasonable timescale, the match can be terminated by the referee.

6:3 RESULT BY DECISION

- 6:3:1 In the event of no pin or submission, the referee will make a decision based on who has been a more dominant wrestler throughout the match.

7.OFFICIALS

7:1 SNAKE PIT EVENT MANAGER

7:1 The event manager is responsible for the overall event.

7:2 REFEREES

7:2:1 The central referee has overall say before, during and after the match. He is responsible for ensuring that nails, skin, attire, head guards, protective guards and such standards are met by the wrestlers. This can also include asking wrestlers to remove jewellery that is a risk to themselves or their opponent.

7:2:2 It is the responsibility of the central referee to apply the rules and cease the wrestling in the event of a pin/ fall or submission.

7:2:3 Should the match run the full time, the referee decides and declares a winner based on the overall dominance of either wrestler.

7:2:4 There are no points to be scored in Catch wrestling.

7:2:5 The peripheral referee is there to support the central referee and advise in case of query. They do not have overall say but will support and work with the central referee to aid with decision making.
